

San Diego

Opened in 1999, the San Diego office of Condon-Johnson & Associates (CJA) performs subcontracting work as well as site packages of shoring excavation and dewatering in the San Diego area & Arizona.

Recent projects include soldier pile and lagging projects at Broadway 655 and the Inn at LaJolla; a fiberglass soil nail project at M2i; drilled shafts at the 5/805 interchange; and liquefaction mitigation using stone columns and Geo-Jet® at the Naval Amphibious Base.
