

Seattle

The Seattle office of Condon-Johnson & Associates (CJA) performs construction projects in Alaska, Idaho, Colorado, Montana, Oregon, Utah, and Washington.

CJA has serviced major building contractors as a specialty subcontractor and performed general contracting from this office since 1990. Recent projects include drilled shafts on Sound Transit, Seattle, WA; access development for Fish Ladder Construction at Howard Hansen Dam, Ravensdale, WA; and large diameter shaft development for missile silos at Fort Greeley, AK.
